

Garland Independent School District 2009 High School Orientation Schedule

Planning for high school is an exciting time for students and their parents. Your child will be meeting with his/her middle school counselor to plan a tentative four-year high school program and register for ninth grade classes. In order to better inform you about course offerings and graduation requirements, meetings have been scheduled for you and your son/daughter to attend. The meetings will consist of informative presentations by the high school counselors, information about athletics, clubs, and extracurricular activities, and a question/answer period.
