Local Implementation Considerations:

Students completing two or more courses for two or more credits within a program of study earn concentrator status for Perkins V federal accountability reporting.

Proposed Indicator: Students finishing three or more courses for four or more credits with one course from a TEA recognized capstone course (in bold) within a program of study earn completer status for federal accountability reporting.
The Animal Science program of study focuses on the science, research, and business of animals and other living organisms. It teaches students how to apply biology and life science to real-world life processes of animals and wildlife, either in laboratories or in the field, which could include a veterinary office, a farm or ranch, or any outdoor area harboring animal life. Students may also research and analyze the growth and destruction of species and research or diagnose diseases and injuries of animals.

The Agriculture, Food, and Natural Resources (AFNR) Career Cluster® focuses on the essential elements of life—food, water, land, and air. This career cluster includes a diverse spectrum of occupations, ranging from farmer, rancher, and veterinarian to geologist, land conservationist, and florist.

Successful completion of the Animal Science program of study will fulfill requirements of the Business and Industry Endorsement. Approved Statewide Program of Study - September 2019

The Applied Agricultural Engineering program of study explores the occupations and educational opportunities associated with applying knowledge of engineering technology and biological science to agricultural problems concerned with power and machinery, electrification, structures, soil and water conservation, and processing agricultural products. This program of study may also include exploration into diagnosing, repairing, or overhauling farm machinery and vehicles, such as tractors, harvesters, dairy equipment, and irrigation systems.

The Agriculture, Food, and Natural Resources (AFNR) Career Cluster® focuses on the essential elements of life—food, water, land, and air. This career cluster includes a diverse spectrum of occupations, ranging from farmer, rancher, and veterinarian to geologist, land conservationist, and florist. It also includes non-traditional agricultural occupations like wind energy, solar energy, and oil and gas production.

For more information on postsecondary options for this program of study, visit TXCTE.org.

Additional industry based certification information is available from the TEA CTE website.

Principles of Agriculture, Food, and Natural Resources
8A100
TSDS PEIMS Code: 13000200 (PRINAFNR)
Grade Placement: 9–10, Credit: 1
Prerequisite: None.
Principles of Agriculture, Food, and Natural Resources will allow students to develop knowledge and skills regarding career and educational opportunities, personal development, globalization, industry standards, details, practices, and expectations.

Horticulture Science
8A170 (NFHS)
TSDS PEIMS Code: 13002000 (HORTISCI)
Grade Placement: 9 -11, Credit: 1
Prerequisite: None.
Horticultural Science is designed to develop an understanding of common horticultural management practices as they relate to food and ornamental plant production.

Wildlife, Fisheries, and Ecology Management
8A120
TSDS PEIMS Code: 13001500 (WFECGT)
Grade Placement: 9–12, Credit: 1
Prerequisite: Principles of Agriculture, Food and Natural Resources.
Wildlife, Fisheries, and Ecology Management examines the management of game and non-game wildlife species, fish, and aqua crops and their ecological needs as related to current agricultural practices. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer their knowledge and skills in a variety of settings.

Floral Design
8A160
TSDS PEIMS Code: 13001800 (FLORAL)
Grade Placement: 9–12 Credit: 1
Prerequisite: None.
Floral Design is designed to develop students’ ability to identify and demonstrate the principles and techniques related to floral design as well as develop an understanding of the management of floral enterprises. Through the analysis of artistic floral styles and historical periods, students will develop respect for the traditions and contributions of diverse cultures. Students will respond to and analyze floral designs, thus contributing to the development of lifelong skills of making informed judgments and evaluations. Note: This course satisfies a fine arts credit requirement for students on the Foundation High School Program.

Small Animal Management
8A110S
TSDS PEIMS Code: 13000400 (SMANIMGT)
Grade Placement: 10–12, Credit: .5
Prerequisite: None.
In Small Animal Management, students will acquire knowledge and skills related to small animals and the small animal management industry. Small Animal Management may address topics related to small mammals such as dogs and cats, amphibians, reptiles, and birds.

Equine Science
8A230S
TSDS PEIMS Code: 13000500 (EQUINSCI)
Grade Placement: 10–12, Credit: .5
Prerequisite: None.
In Equine Science, students will acquire knowledge and skills related to equine animal systems and the equine industry. Equine Science may address topics related to horses, donkeys, and mules.
Livestock Production
8A220
TSDS PEIMS Code: 13000300 (LIVEPROD)
Grade Placement: 10–12, Credit: 1
Prerequisite: None.
In Livestock Production, students will acquire knowledge and skills related to livestock and the livestock production industry. Livestock Production may address topics related to beef cattle, dairy cattle, swine, sheep, goats, and poultry.

Agricultural Mechanics and Metal Technologies
8A200
TSDS PEIMS Code: 13002200 (AGMECHMT)
Grade Placement: 10–12, Credit: 1
Recommended Prerequisite: Principles of Agriculture, Food, and Natural Resources. Agricultural Mechanics and Metal Technologies is designed to develop an understanding of agricultural mechanics as it relates to safety and skills in tool operation, electrical wiring, plumbing, carpentry, fencing, concrete, and metal working techniques. To prepare for careers in agricultural power, structural, and technical systems, students must attain academic skills and knowledge; acquire technical knowledge and skills related to power, structural, and technical agricultural systems and the industry; and develop knowledge and skills regarding career opportunities, entry requirements, industry certifications, and industry expectations.

Agricultural Power Systems
8A210
TSDS PEIMS Code: 13002400 (AGPOWSYS)
Grade Placement: 10–12, Credit: 2
Recommended Prerequisite: Principles of Agriculture, Food, and Natural Resources. Agricultural Power Systems is designed to develop an understanding of power and control systems as related to energy sources, small and large power systems, and agricultural machinery. To prepare for careers in agricultural power, structural, and technical systems, students must attain academic skills and knowledge; acquire technical knowledge and skills related to power, structural, and technical agricultural systems and the workplace; and develop knowledge and skills regarding career opportunities, entry requirements, industry certifications, and industry expectations.

Food Technology and Safety
8A213
TSDS PEIMS Code: 13001300 (FOODTS)
Grade Placement: 10–12, Credit: 1
Prerequisite: None.
Food Technology and Safety examines the food technology industry as it relates to food production, handling, and safety. To prepare for careers in value-added and food processing systems, students must attain academic skills and knowledge; acquire technical knowledge and skills related to value-added and food processing and the workplace, and develop knowledge and skills regarding career opportunities, entry requirements, and industry expectations.

Agricultural Structures Design and Fabrication
8A360
TSDS PEIMS Code: 13002300 (AGSDF)
Grade Placement: 10–12, Credit: 1
Prerequisites: Agricultural Mechanics and Metal Technologies.
In Agricultural Structures Design and Fabrication, students will explore career opportunities, entry requirements, and industry expectations. To prepare for careers in mechanized agriculture and technical systems, students must attain knowledge and skills related to agricultural structures design and fabrication.
Food Processing
8A273
TSDS PEIMS Code: 13001400 (FOODPRO)
Grade Placement: 10–12, Credit: 1
Recommended Prerequisite: Food Technology and Safety.
Food Processing focuses on the food processing industry with special emphasis on the handling, processing, and marketing of food products. To prepare for careers in food products and processing systems, students must attain academic skills and knowledge, acquire technical knowledge and skills related to natural resources and the workplace, and develop knowledge and skills regarding career opportunities, entry requirements, and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer their knowledge and skills in a variety of settings.

Energy and Natural Resources Technology
8A250
TSDS PEIMS Code: 13001100 (ENGNRT)
Grade Placement: 10–12, Credit: 1
Recommended Prerequisites: Minimum one credit from the courses in Agriculture, Food, and Natural Resources Career Cluster. Energy and Natural Resource Technology examines the interrelatedness of environmental issues and production agriculture. Students will evaluate the environmental benefits provided by sustainable resources and green technologies. Instruction is designed to allow for the application of science and technology to measure environmental impacts resulting from production agriculture through field and laboratory experiences.

Landscape Design and Management
8A130 (NFHS)
TSDS PEIMS Code: 13001900 (LNDMGT)
Grade Placement: 10, Credit: .5
Prerequisite: None.
Landscape Design and Management is designed to develop an understanding of landscape design and management techniques and practices. To prepare for careers in horticultural systems, students must attain academic skills and knowledge, acquire technical knowledge and skills related to horticultural systems and the workplace, and develop knowledge and skills regarding career opportunities, entry requirements, and industry expectations.

Turf Grass Management
8A140S (NFHS)
TSDS PEIMS Code: 13001950 (TGMGT)
Grade Placement: 10–12, Credit: .5
Prerequisite: None.
Turf Grass Management is designed to develop an understanding of turf grass management techniques and practices.

Advanced Floral Design
8A240 (NFHS)
TSDS PEIMS Code:
Grade Placement: 10–11, Credit: 1
Prerequisite: Floral Design
Floral Design is designed to develop students' ability to identify and demonstrate the principles and techniques related to floral design as well as develop an understanding of the management of floral enterprises. Through the analysis of artistic floral styles and historical periods, students will develop respect for the traditions and contributions of diverse cultures. Students will respond to and analyze floral designs, thus contributing to the development of lifelong skills of making informed judgments and evaluations. Note: This course satisfies a fine arts credit requirement for students on the Foundation High School Program.
Greenhouse Operation and Production
8A270 (NFHS)
TSDS PEIMS Code: 13002050 (GREOP)
Grade Placement: 10–12 Credit: 1
Prerequisite: None.
Greenhouse Operation and Production is designed to develop an understanding of greenhouse production techniques and practices. To prepare for careers in horticultural systems, students must attain academic skills and knowledge, acquire technical knowledge and skills related to horticultural systems and the workplace, and develop knowledge and skills regarding career opportunities, entry requirements, and industry expectations.

Advanced Plant and Soil Science
8A410 (NFHS)
TSDS PEIMS Code: 13002100 (ADVPSSCI)
Grade Placement: 11–12 Credit: 1
Prerequisite: None.
Recommended Prerequisites: Biology, Integrated Physics and Chemistry, Chemistry, or Physics and a minimum of one credit from the courses in the Agriculture, Food, and Natural Resources Career Cluster. Advanced Plant and Soil Science provides a way of learning about the natural world. Students should know how plant and soil science has influenced a vast body of knowledge, that there are still applications to be discovered, and that plant and soil science is the basis for many other fields of science. To prepare for careers in plant and soil science, students must attain academic skills and knowledge, acquire technical knowledge and skills related to plant and soil science and the workplace. Note: This course satisfies a science credit requirement for students on the Foundation High School Program.

Agricultural Equipment Design and Fabrication
8A307
TSDS PEIMS Code: 13002350 (AGEQDF)
Grade Placement: 11–12 Credit: 1
Prerequisites: Agricultural Mechanics and Metal Technologies.
In Agricultural Equipment Design and Fabrication, students will acquire knowledge and skills related to the design and fabrication of agricultural equipment.

Advanced Animal Science
8A410
TSDS PEIMS Code: 13000700 (ADVANSCI)
Grade Placement: 11–12 Credit: 1
Prerequisites: Biology and Chemistry or Integrated Physics and Chemistry (IPC); Algebra I and Geometry; and either Small Animal Management, Equine Science, or Livestock Production.
Recommended Prerequisite: Veterinary Medical Applications. Advanced Animal Science examines the interrelatedness of human, scientific, and technological dimensions of livestock production. Instruction is designed to allow for the application of scientific and technological aspects of animal science through field and laboratory experiences. Note: This course satisfies a science credit requirement for students on the Foundation High School Program.

Veterinary Medical Applications
8A940 (GRCTC)
TSDS PEIMS Code: 13000600 (VETMEDAP)
Grade Placement: 11–12 Credit: 1
Prerequisites: Equine Science, Small Animal Management, or Livestock Production.
Veterinary Medical Applications covers topics relating to veterinary practices, including practices for large and small animal species.
Practicum in Agriculture, Food, and Natural Resources/Extended Practicum in Agriculture, Food, and Natural Resources
8A320/8A330 EXT
TSDS PEIMS Code: 13002500(PRAFNR1) / Extended 13002505 (EXPRACFNR1)
Grade Placement: 12, Credit: 2 or 3 EXT
Prerequisites: A minimum of one credit from the courses in the Agriculture, Food, and Natural Resources Career Cluster. Extended Practicum in Agriculture, Food, and Natural Resources is designed to give students supervised practical application of knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experiences such as employment, independent study, internships, assistantships, mentorships, or laboratories. The practicum course is a paid or unpaid capstone experience for students participating in a coherent sequence of career and technical education courses in the Agriculture, Food, and Natural Resources Career Cluster.

Practicum in Agriculture, Food, and Natural Resources/Extended Practicum in Agriculture, Food, and Natural Resources - Veterinary Medical Lab GRCTC
8A950/8A953 EXT (GRCTC)
TSDS PEIMS Code: 13002500 (EXPRAFNR1), Extended 13002505 (EXPRACFNR1)
Grade Placement: 12, Credit: 2 or 3 EXT
Prerequisite: Veterinary Medical Applications
Extended Practicum in Agriculture, Food, and Natural Resources is designed to give students supervised practical application of knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experiences such as employment, independent study, internships, assistantships, mentorships, or laboratories. The practicum course is a paid or unpaid capstone experience for students participating in a coherent sequence of career and technical education courses in the Agriculture, Food, and Natural Resources Career Cluster.
